

ENA Tower Testing Station Inc. is aware of the importance of quality, environment and occupational health and safety issues in order to be a successful and reliable world brand in the sector in which it operates.

For this purpose, it carries out all its activities in a sustainable way in accordance with the integrated management system that covers quality, environment and occupational health and safety, which it has created in line with its vision, mission and values.

Our vision,

To be a leading brand preferred nationally and internationally in its sector.

Our mission,

To provide services in accordance with the principles of confidentiality and honesty by ensuring being impartial, independent, effective and reliable in all works carried out.

In this context ENA commits;

- To continuously improve all processes by effectively managing risks and opportunities,
- To set measurable targets for business processes and to increase its performance in an internationally competitive manner,
- To maintain its dynamic, innovative and competitive position by continuously improving human resources and operation technologies,
- To meet customer expectations in a team spirit by achieving all products and processes,
- To carry out its activities in accordance with the applicable legal regulations, internationally accepted standards, customer conditions and sectoral good business practices, to develop the assurance of compliance with the legislation,
- To take the necessary measures to prevent the negative effects of its activities on people and the environment from the design stage to the end of its life cycle and to implement them with all its employees, suppliers and contractors,
- To minimize the risks of unsafe situations and actions, possible accidents and occupational diseases,
- To reduce consumption, waste and greenhouse gas formation, to prevent pollution by using energy and natural resources efficiently,
- To develop the skills and competencies of employees and business partners on quality, environment and occupational health and safety, ensuring their participation in studies and consulting,
- To ensure the security of sensitive information and intellectual property of its customers, stakeholders, business partners and employees,
- To establish the necessary communication with all relevant parties, managing their relations in a transparent manner and with a common mind,
